User Stories

Project name: NewsPalace

Concept: One place to get all news from different sources.

1) As a user, I want to search news. So, I can be updated on what's going on.

2) As a user, I want to share the news with my friends and family on social media.

3) As a user, I want to read the complete news by visiting the original site.

4) As a user, I want to save those news. So, I can visit those news later.

5) As a user, I want to explore the news category wise (i.e. tech, science, etc.)

6) As a user, I want to see my search history. So, I can see what did I searched for.

7) As a user, I want to clear my search history.

8) As a user, I want to see my local news.

9) As a user, I want to see my history and saved news when I come back later. So, I can safely close my application.
